SHED CENTRE SC

PRODUCT GUIDE

WWW.SHEDCENTRE.COM.AU

BUILT FOR YOUR LIFE, NOT JUST YOUR BACKYARD

While we pride ourselves on providing Australia's best sheds, our expertise doesn't stop there. Whether you need to protect your family vehicle, secure your heavy farm machinery, or build the ultimate weekend workshop, we have a steel structure designed perfectly for your space and your needs.

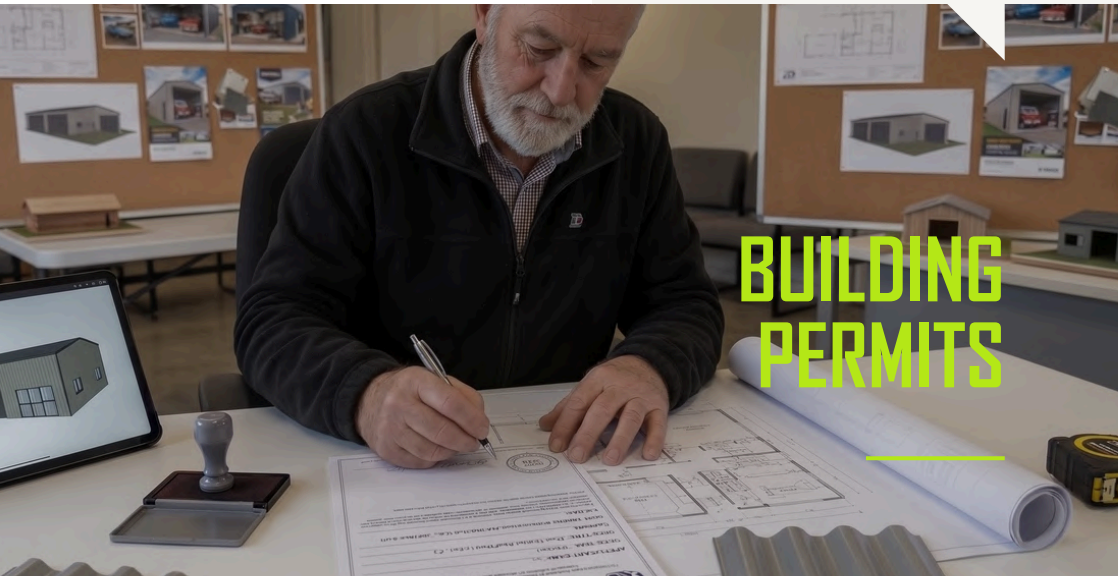

CUSTOM DESIGN CONSULTATIONS

WE'RE MUCH MORE THAN JUST SHEDS

Shed Centre offers a full turn-key service, including design, engineering, permits, and installation.

BUILDING PERMITS

NO SUCH THING AS STANDARD

Don’t settle for standard. Transform your project using customisations like sectional doors and custom sheet profiles.

GABLE DOUBLE GARAGE

Profile: Low Profile

Dimensions: 6m x 6m

Colours: Monument and Woodgrain Sectional Door

GABLE SINGLE GARAGE

Profile: Corrugated

Dimensions: 4m x 6m

Colour: Classic Cream and Cottage Green

SKILLION FACTORY SHED

Profile: High Profile

Dimensions: 23m x 18m

Colours: Southerly and Monument

AGRICULTURAL BARNS AND SHEDS

Shed Centre offers everything you need on a rural / farm property, from hay sheds to barns. Whether you need additional machinery storage, or a place to house livestock, we've got you covered.

AMERICAN BARNS

MACHINERY / HAY SHEDS

INCREASE THE VALUE OF YOUR HOME

Expand your parking or create the perfect outdoor entertaining area. Our carports and verandahs are an easy way to add comfort, convenience and lasting value to your home.

EXTRA SPACE IF YOU NEED IT

Expand outwards with a garaport or attached sideport for easy-access outdoor shelter. Inside, build upwards with a custom loft to unlock massive overhead storage without expanding your concrete footprint.

GARAPORT

MEZZANINE / LOFT

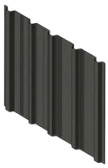

MORE THAN JUST A SHED

COLOUR AND FINISH OPTIONS FOR EVERY STYLE

Choose from the complete Colorbond® colour range and multiple profile options to design a premium, Australian-made structure that perfectly matches your home, or makes a bold statement.

VERTICAL TRIMDEK

HORIZONTAL TRIMDEK

VERTICAL CORRUGATED

PA DOORS

ROLLER DOOR MOTORS

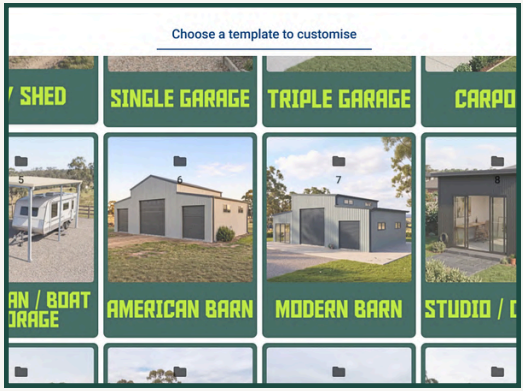

GLASS DOORS & WINDOWS

DREAM IT. DESIGN IT. BUILD IT.

Designing your custom shed is effortless with our 3D Designer. Simply start with a template, customise to your liking, and hit “Request This Quote.” Our expert consultants will handle the rest.

SCAN TO TRY

YOUR 5-STEP GUIDE TO BUILDING WITH SHED CENTRE

1

PLAN YOUR PROJECT

Collaborate with your consultant to determine the ideal size, design, and location for your project. We'll then follow up with a custom quote and initial permits advice.

2

SECURE YOUR ORDER

Your consultant will finalise your kit order and deposit. This secures your pricing, confirms your design selections, and allows us to begin the permit process.

3

PREPARE THE PAPERWORK

We will prepare all the documentation for your permit application. If you require additional council consents, we will connect you with the right consultants to assist.*

4

MANUFACTURING AND DELIVERY

Once your permit is issued, we will invoice 40% of the kit to commence your order and schedule a concreter (if required). Foundations are typically poured 1-2 weeks prior to delivery.

5

THE FINAL BUILD

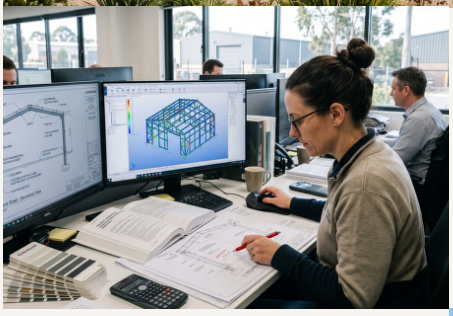

Once your slab is ready, we'll invoice the final balance and schedule your delivery and build. The final inspection can take place when your stormwater is connected.

*If your project is worth over $20,000, you may need an owner-builder certificate or a registered build contract.

LET US HANDLE IT

Skip the stress. From the initial design and engineering to securing permits and handling the build, Shed Centre takes care of your entire project from concept to completion.

CUSTOM ENGINEERING

Every design you build on our website is instantly backed by custom, site-specific structural engineering.

PROJECT MANAGEMENT

Leave the logistics to us. We schedule the trades and manage any on-site queries for a stress-free build.

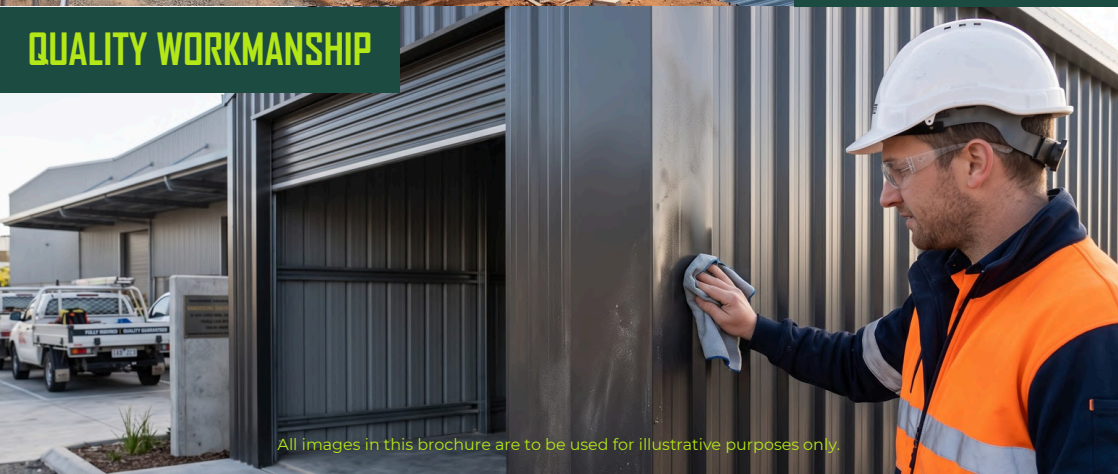

WARRANTIES YOU CAN TRUST

Invest with confidence knowing your project is protected. Enjoy an up to 20-year BlueScope Steel warranty on materials, alongside comprehensive workmanship warranties provided directly by our trusted network of contractors and licensed builders.
